# Kobe Cortez

(253) 777-9301 | kobecortez31@gmail.com | linkedin.com/in/kbcrtz | github.com/kbcrtz | kobecortez.com

## Education

**Pacific Lutheran University** Tacoma, WA

*Bachelor of Science in Computer Science | Senior* *Sep. 2023 – May 2027*

- **Relevant Coursework**: Data Structures, Algorithms, Object-Oriented Design, Artificial Intelligence, Machine Learning

## Experience

**Proliance Surgeons** Seattle, WA

*Software Engineering & Applications Intern* *June 2026 – Sep. 2026*

- Pioneered an AI-assisted analysis workflow for NextGen EHR clinical templates using Claude Code, mapping 5 linkage mechanisms across 7 MIPS/MVP templates in under an hour.
- Built a PHP/ODBC web tool on IIS and SQL Server replacing hard-coded practice IDs in a PowerShell payment-import pipeline for no-code Wells Fargo to NextGen mapping updates.
- Presented HIPAA-compliant generative AI guidelines to 100+ staff with a live demo; pitched IT leadership an 8-step Claude Code adoption runbook.

**White Pass Ski Patrol** White Pass Ski Area, Lewis County, WA

*Software Engineer Intern* *May 2025 – Aug. 2025*

- Designed and built an employee management system in React and TypeScript for 200+ patrollers, owning the UI end-to-end and reducing shift assignment time by 60%.
- Partnered with dispatchers to prototype responsive UI/UX workflows in Figma, then implemented reusable React components and interaction patterns from those designs.
- Integrated real-time data synchronization with Firebase, enabling instant updates across 200+ concurrent users and reducing data inconsistency errors by 85%.

## Projects

**Gear Fitness** 🔗 | *React Native, Expo, TypeScript, Spring Boot, PostgreSQL, AWS, Docker*

- Designed and built a social fitness app end-to-end, growing to 400+ Apple App Store users; owned product design, a monochrome design system, and the full React Native frontend.
- Implemented workout tracking, social features, and in-app fitness guidance, including a muscle-activation diagram generator that renders platform-optimized workout visuals for users to share across multiple social channels.
- Architected a Spring Boot backend with 15+ REST endpoints and a PostgreSQL schema of 12+ normalized tables, keeping analytics and feed queries under 100ms.
- Deployed the app on AWS Elastic Beanstalk with Docker and GitHub Actions CI/CD, implementing Google OAuth2/JWT authentication and pre-signed S3 uploads while cutting deployment time by 70%.

**Silo** 🔗 | *React Native, Expo, TypeScript, Skia, Gemini API , PostgreSQL, Shopify, Railway*

- Built a full-stack AI styling iOS app at University of Washington's DubHacks that finds a user's seasonal palette from a selfie via Gemini and ranks live Shopify Global Catalog listings by CIE Lab $\Delta E$ color fit.

## Leadership

**Pacific Lutheran University** Tacoma, WA

*President, Computer Science Club* *Aug. 2024 – Present*

- Founded and organized LuteHacks, PLU's first hackathon, leading logistics, judging, and sponsorship for a multi-track event focused on web and AI projects.
- Lead a 50+ member technical community by running workshops on React, AI/ML integration, and mock technical interviews.

**Technology Access Foundation** Federal Way, WA

*Instructor, Web Development* *Jan. 2025 – May 2025*

- Taught HTML, CSS, and JavaScript to 26 students, guiding front-end projects through iterative design and code reviews.

## Skills

**Languages**: TypeScript, JavaScript, Java, Python, SQL, HTML, CSS
**Frontend & Design**: React, React Native, Expo, Three.js, React Three Fiber, WebGL, responsive UI
**Backend & Cloud**: Spring Boot, Node.js, Flask, REST APIs, PostgreSQL, AWS, Docker, CI/CD
**AI & Tooling**: Claude Code, LLM API integration, prompt engineering, Git, Agile
